Based on detected heart rate

Size: 5.35"(L) x 3.3(W) x 0.82(H)
Weight: 3.52oz (without batteries)

The Next Generation

**Eocene
SYSTEMS**

The handheld ECG monitor, powered by Eocene Systems, is designed for in-home and in-office use. Regular and frequent monitoring of heart health can lead to early detection of risk factors. Patients using the ECG Monitor can instantly upload and share their measurements with their health care team through the secure, online Eocene System platform.
