Wrist Pulse Oximeter

 **Download Test Results**
Through USB connection-view and print on-demand reports

 **Powerful Data Management**
99 ID codes, 72 hour record storage

 **Compact Size & Lightweight**
Convenient for travel and frequent use

 **Simple Menu Operations**
Easy to operate

 **Low Power Consumption**
Automatic shut-off feature

The wrist pulse oximeter, powered by Eocene Systems, is designed for convenient measurement and storage of functional oxygen saturation of arterial hemoglobin (SpO2) and pulse rate. Test results can be viewed secure online in easy-to-read charts and graphs through the Eocene Remote Home Patient Monitoring System.
